

Core Question 1: Is the educational program a success?

The Academic Performance Framework, outlined in Core Question 1, gauges the academic success of schools in serving their target populations and closing the achievement gap in Indianapolis. Core Question 1 consists of seven indicators designed to measure schools on how well their students perform and grow on standardized testing measures, attendance, and school-specific measures.

1.1. Is the school's academic performance meeting state expectations, as measured by Indiana's accountability system?							
Indicator Targets	Does not meet standard		School has received a 'D' or 'F' for the most recent school year OR has received a 'D' for the last two consecutive years.				
	Approaching standard		School has received a 'C' for the most recent school year.				
	Meets standard		School has received a 'B' for the most recent school year.				
	Exceeds standard		School has received an 'A' for the most recent school year.

The Indiana State Board of Education awarded Indianapolis Metropolitan High School a **D** for its 2013-14 school year performance. A school receives its final letter grade by earning proficiency points in both English/Language Arts and Math, and receiving a combination of bonus and penalty points based on improvement in proficiency between 8th and 10th grade. High Schools also receive points based on graduation rate, and college and career readiness of graduates. For detailed information about how the Indiana Department of Education calculates A-F letter grades, click [here](#).

In Spring 2014, the 10th grade cohort at Indianapolis Metropolitan High School had a proficiency rate of 35.5% on the English 10 End of Course Assessment (ECA), and received a penalty due to its 8th grade to 10th grade improvement rate and a no bonus from 10th grade to graduation improvement.

Indianapolis Metropolitan High School's 10th grade cohort had a proficiency rate of 45.2% on the Algebra I ECA, and also received a penalty for its improvement rate from 8th to 10th grade and a no bonus for 10th grade to graduation improvement.

Additionally, Indianapolis Metropolitan High School had a four-year graduation rate of 64.0%, with 36.6% of those graduates qualifying as "college and/or career ready".

Based on its 10th grade cohorts proficiency and improvement, graduation rate, and college and career readiness rate, the school received a **D** for the 2013-14 school year and received a **Does Not Meet Standard** on the Office of Education Innovation (OEI) performance framework.

	Indicator 1.2 does not apply to high school grades.						

The Indiana Growth Model does not currently include growth measures for high school assessments. Therefore, high schools do not receive a rating on this indicator in the OEI performance framework.

1.3. Is the school preparing students to graduate from high school on time, and preparing those students who have not graduated on time to graduate within 5 years, as measured by Indiana’s cohort graduation rate?							
Indicator Targets	Does not meet standard	School’s 4-year graduation rate is below 70.0% and the school demonstrated less than a 5.0 percentage point increase from its 4-year to 5-year graduation rate.

The Indiana Department of Education (IDOE) places all Indiana students into a cohort by the student’s first date of enrollment in high school. By placing each student in a cohort, IDOE can measure school’s four-, five- and six-year graduation rates. For more information on how graduation rates are calculated in Indiana, click [here](#).

IDOE considers all students who have completed graduation requirements by October 1st of their cohort’s graduation year as four-year graduates. Because of this extension, graduation rates are measured a year in arrears for accountability purposes in order to capture those students who graduate after the end of the school year in May.

For the 2013-14 school year, OEI assesses Indianapolis Metropolitan High School by reviewing the results of 2013 graduation. The school's 2013 four-year graduation rate was 64.0%, while its five-year graduation rate was 73.1%. The school showed a 9.1% increase from its four-year to five-year graduation rate.

From this data, the school earned an **Approaching Standard** for this indicator on the OEI performance framework.

1.4. Is the school providing an equitable education for students of all races and socioeconomic backgrounds?							
Indicator Targets	Does not meet standard		School has more than 15% difference in the percentage of students passing standardized assessments amongst races and socioeconomic statuses.				
	Approaching standard		School has no more than 15% difference in the percentage of students passing standardized assessments amongst races and socioeconomic statuses.				
	Meets standard		School has no more than 10% difference in the percentage of students passing standardized assessments amongst races and socioeconomic statuses.				
	Exceeds standard		School has more than 5% difference in the percentage of students passing standardized assessments amongst races and socioeconomic statuses.

Each year, the Indiana Department of Education reports student results disaggregated by race/ethnicity groups and socioeconomic status.

In order to examine subgroup proficiency, a school must have at least 30 students enrolled in more than one subgroup in its 10th grade cohort. Because Indianapolis Metropolitan High School did not enroll 30 students in more than one subgroup, the school was **not evaluated** on this indicator.

1.5. Is the school's attendance rate strong?							
Indicator Targets	Does not meet standard		School's attendance rate is less than 95.0%.				
	Meets standard		School's attendance rate is great than or equal to 95.0%.
