

# VEX Robotics Workshop

July 27-29, 2015 9:00 a.m.-4:00 p.m.

Purdue University College of Technology  
Kelly Center, Room 274  
2300 South Washington Street  
Kokomo, IN 46904

Come join fellow novice STEM teachers from central Indiana at a free, 3-day, 7-12th grade teacher workshop that will focus on robotics as a teaching tool. The workshop will introduce participants to a hands-on approach to learning new methods and teaching strategies for implementation into the classroom. It will also provide a comfortable atmosphere to build, program and practice new skills that will culminate with a competition on the last day of the workshop.

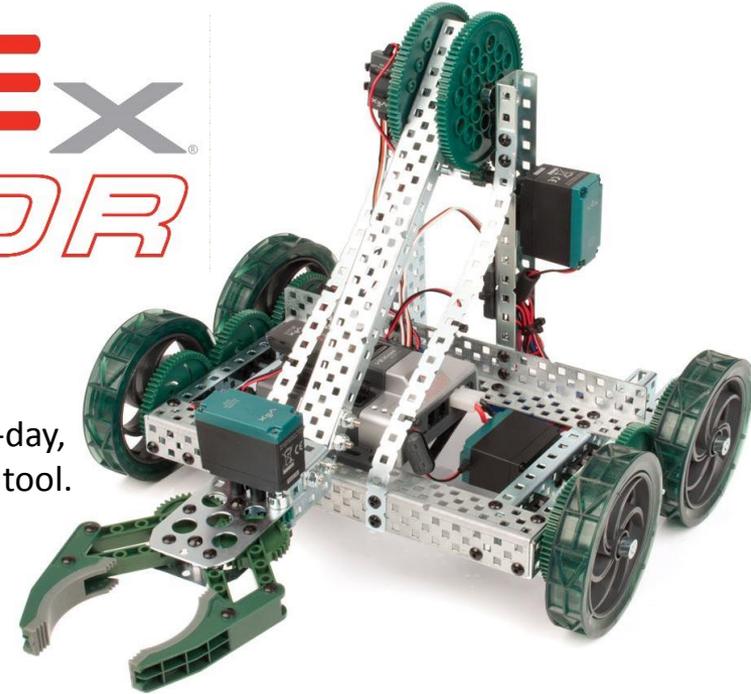

Who is eligible?

Public school STEM teachers that have no previous Indiana Robotics Educator grant training experience that are not PLTW and intend to participate in VEX Robotics in the 2015-2016 school year.

Participants will be granted a VEX Robotics Kit and other materials to use in their classrooms.

Space is limited so register soon! Registration site: <http://form.jotform.us/form/51345772449159>
